

In the company of the satanic families of Hare Krishna Indians I was told of another Hindu cult of celibate monks who live in seclusion in the forests of India, also ancient and legitimate, just like the satanic cult of the Hare Krishnas. This cult feeds its members with the bodily flesh of human children kidnapped from the streets, and the bodily flesh of children of parents they rob and kill to finance themselves. The cult worships Kali, a member of the Hindu pantheon also respected by the satanic Krishna cult. The cult sustains its membership by sparing some of the kidnapped children to convert to their way of life. ...not so different from Hare Krishna satanism, but perhaps a little less bloody and more hands on, but with the same goals and parallel strategy. ...also controlled by self-proclaimed celibates, gurus, and in full faith of their religious superiority and connection with their devil gods.

Your brother gave me a baby education to teach me to fast to death, using a proven Indian method, that includes a way to avoid making a mess when the internal organs disintegrate; and other disgusting and irrelevant ways of looking at the world and reacting to people and events. And my mother is a victimizer of the same satanic cult!

Your brother used pictures of me to promote his temple. Then he left me alone, to toxic cats and poisonous insects. I was infected with toxoplasma and scabies there. Your father took me away because I was covered with sores, being eaten alive by parasites at your brother's satanic temple. When your father passed, his whore wife and your satanic brother decided to cut me off, and your brother tried to chant me to death. That's what he believes in, that's why he chants, to manipulate the world with witchcraft (mind control at a distance); that's what he believes in. The gurus goal is to justify his crimes for an alien satanic strategy of material success, directly from the ancient urban hell of ancient Indians; where children were (are) maimed to be successful beggars, and fathers rob and rape their own children to promote themselves with youth who never stop screaming their names out of loss and horror.—The Hare Krishna cult preaches a suicidal religion to be-little its slaves, and make them complacent, and accept the bigamy of its proprietors. "Proprietors," is Bruce's motivation for desiring that I be homeless. The cult feeds off the activities of the homeless and hungry. It's what Bruce and his satanic community created the institutions to manufacture out of unprotected boys. ...and to exploit and profit from the sale of girls. He chose to destroy the children in his care to avoid sitting with them at the tables of his parents and siblings, shy of looking ridiculous, and ripe with satanic will to murder and rape children for his satanic religion and greed. He justified the horror and suffering and rape by blaming victims for sins in their previous lives!---Why exactly was it decided to leave me homeless and without family connections, without a home, without family, without friends and without a constructive beginning? Do you remember the excuses?---The Mayan cult marched hundreds of thousands of sacrificial victims to the tops of its temple altars. Most of the human sacrifices were willing and in full faith of religious perfection to have their beating hearts violently ripped from their living bodies and the mass of bleeding flesh tossed into the sacrificial fire below.---What is your brother? What kind of sick insanity? Why was he given reign to destroy me and Krishna Kanti Cring? Why was he given anything? What a horrible hell that satanic-guru-of-the-Krishna-demon laughs about. What a depraved satanic hell that man imposed and what horrible crimes he committed.
